# WORK WITH JANICE

**Women and girls of color are in CRISIS! I believe females are one of the world's most precious natural treasures, yet, everyday, women and girls of color face challenges that often threaten their survival and success. Challenges including bullying; racism; alcohol, drugs, tobacco and vaping abuse; lack of confidence and cultural pride; health disparities (addiction, cancer & obesity); media/social media exploitation; mental, emotional, physical and sexual abuse and harassment; and, lack of hope, spiritual guidance and positive role models. After 40 years as a "Street Warrior" for females of color, I made the decision to turn my unique personal and professional life experiences into tools to help women of color over 50, and organizations and institutions that employ & serve them, find their voices and create blueprints for their lives; AND, parents, practitioners and leaders of girl-serving organizations, to empower girls of color to build confidence and cultural pride, and, develop personal action plans for their lives.**

**If you are raising girls of color and/or serve women & girls of color, and need additional guidance and support to become a more effective leader, parent or practitioner - let me and my team help you make a more meaningful difference in their lives.**

**CONTACT me to discuss how I can help you prepare the women and girls in your life to become more peaceful, purposeful and powerful global citizens, equipped with tools to become WOMEN WARRIORS and diplomatic leaders.**

**Projects customized upon request.**
